# Railroad Incorporations

[Colorado State Archives](#) (Contact us for photocopies of these documents)

Articles of Incorporation show the function of the corporation, officers and directors at time of incorporation, date of incorporation, and many times where the corporation functioned.

“D&I” means “Defunct and Inoperative” or when the corporation was declared out of business. If there is a “D” in the column it means that it was declared D&I but the date was illegible. Corporations could also dissolve voluntarily.

# Railroad Incorporations

[Colorado State Archives](#) (Contact us for photocopies of these documents)

Articles of Incorporation show the function of the corporation, officers and directors at time of incorporation, date of incorporation, and many times where the corporation functioned.

“D&I” means “Defunct and Inoperative” or when the corporation was declared out of business. If there is a “D” in the column it means that it was declared D&I but the date was illegible. Corporations could also dissolve voluntarily.
